

Mid America Association of State Transportation Officials, Subcommittee on Highway Transport

Dear Motor Carrier Industry:

The Mid America Association of State Transportation Officials subcommittee of Highway Officials (MAASTO-SCOHT) is an advocate for oversize/overweight transportation issues. Our commitment is to collaborate with industry to promote harmonization of laws and regulations to allow efficient movement of goods while providing uninterrupted traffic flow and a safe transportation system among member states.

We would appreciate having your expertise at the table as we discuss "Oversize / Overweight Issues" March 3-4, 2015 at our Spring Conference in conjunction with the SC&RA (Specialized Carriers and Rigging Association) Annual Spring Conference at the Marriott Marquis Atlanta, Atlanta, Georgia. The meeting will feature open discussion in breakout groups, state reports and presentations to gather input from everyone.

Please visit MAASTO's website for agenda, hotel, and SC& RA conference registration information at <http://www.maastoscoht.com/Conference.htm>.

Your input could be a critical and valuable component to help us move forward with harmony among states.

We look forward to seeing you at our conference.

Sincerely,

MAASTO
